A-Z zillions of links - Sheet1

last updated Aprl 21st 2016 at 20.01
previous update Aprl 9th 2016 at 17.00

"free" doesn't usually allow you to freely redistribute the software.
Check with the site, in the download package or contact the developer before sharing.
And if you use something a lot, consider making a donation to the developer.

Thanks to everyone who made this possible, from developers to archivists and collectors, particularly; http://www.kvraudio.com/forum/viewtopic.php?f=1&t=177407

Instruments and Sample Players only, can be found; HERE

All entries are added to the list below, but most Recent Additions, updates, etc can be found; HERE

Remember it's column B that is the A-Z listing - you can download and rearrange it how you like. Hint; sort by column H for site list.

Column K is not the release date; merely the date added to the list if added after Feb 2nd 2014

FL wrapper name or notes	name of dll or standalone	pic	type	guidan	download file or exe	download file or notes	download site	notes	notes	date added
HUGE thanks to eidenk for the stuff I'd missed, lost or forgotten
